# SERVICES:

**Cleaning:** Our depot network allows us to provide an “All-In-One” service to the tank container industry throughout key locations in the India. Take Care Global Services (TCGS) has a dedicated team and new team of skilled

workers who work round the clock to offer the best cleaning service to its clients. TCGS has made significant investment into fume scrubbing and specialist cleaning equipment, to control vapour release and treatment of effluent generated by the cleaning process. Where necessary, excess product may be removed and disposed of prior to specialist man-in-tank cleaning being performed

## Repairs:

With full services, TCGS facilitates timely turn-around and safe keeping of your valuable equipment. Our mechanics are all

trained to the latest 20' ISO (International Organization for Standardization) Tank Container requirements in order to ensure proper handling from gate-in to gate-out. Whether your container needs to be repaired, tested, refurbished, or modified, we are dedicated to providing you the necessary service. In Service repairs, Quick repairs, small repairs,

**Handling & Storage:** Using modern handling equipment we are able to offer empty tank container lifting and limited storage at all of the depots. These depots act as a one-stop-shop for comprehensive

service to the tank container industry throughout the India. Given their strategic proximity to major industrial and commercial areas within the India, tank containers can be serviced and returned to our customers with a fast turnaround.

**TESTING:** Take Care Global Services (TCGS) also offers services for periodical testing of 2.5 yrs & 5 yrs test for all IMO-1 & 5, as well as T-11, T14, T20, & T-50.
